OUR FINANCIAL EMPOWERMENT PROCESSSM

Our Financial Empowerment ProcessSM is a uniquely personal, comprehensive approach to financial planning that always puts your interests first.

Current Situation and Goal Assessment: We start by learning about you - who you are, your specific wants and needs, and what it would take for you to live life to the fullest with no financial worries.

Strategy Development: With a firm understanding of your financial situation and life goals, we partner with you to develop a sound strategic approach designed to accomplish your objectives. Selected from a wide array of options, our recommendations seek to add value and improve upon your current strategy.

Implementation and Review: If you work with us to implement your plan, we will work closely with your legal and tax professionals to put your personalized financial strategy into action. Then, in consultation with you, we review your progress and make adjustments as market conditions and objectives evolve.

Our Financial Empowerment ProcessSM provides you a framework to realize the future you desire and a clear view of your path forward. Then, we continue to support you with ongoing guidance to keep you on track toward a confident financial future.

OUR SERVICES

At Field Financial Strategies, LLC, we approach comprehensive financial planning as a puzzle with many pieces. While many advisors may focus on a few pieces of the puzzle, the "bigger picture" can best be accomplished by examining how all the pieces of your financial "big picture" fit together - not just a couple. By examining all of the pieces relevant to your financial picture, our comprehensive financial planning services will help you create a complete, harmonious financial picture.
